administrative suite

summary

Design solutions at Calvin Theological Seminary included a number of additions and renovations. A new student center with chapel, study area and administrative offices provides a warm and inviting area to gather, work and worship. A new board room takes full opportunity of views to the secluded natural setting near the seminary pond. A new administrative suite gives architectural hierarchy to the main entry of the building while providing bright and welcoming office spaces. A new entry at the northwest corner of the existing building with a new elevator retrofit at the interior provides barrier free access.
