summary

MVP Metro Club desired to develop a world-class fitness and athletic club within an urban context. In collaboration with the MVP team, AMDG designed improvements and renovations to the former Peninsular Club athletic facilities. Major improvements included infilling existing racquetball courts to increase fitness area, adding large windows to bring in natural light to the core spaces of the club, significant upgrades to the locker rooms, multi-purpose room, existing fitness, racquetball and squash courts, and a complete overhaul of the club entry, control desk, and member lounge.
