

A.M.D.G. Consultant Team

consultant team

project team

summary

For every green project, AMDG works with a team of environmentally-conscious consultants who aid in designing successful green buildings. These consultants include a LEED (Leadership in Energy and Environmental Design) Consultant/Agent, LEED Commissioning Agent, Civil/Site, Heating Ventilation Air Conditioning (HVAC)/Plumbing/Electrical, Lighting Design, Structural, and Interiors consultant. The consultant team is part of a larger team including you, the owner, a selected builder, and AMDG, the architect. AMDG provides a green-passioned team, who are equipped to lead, guide and serve an owner interested in going green.
